

2016 CAP TODAY Article Index

Note: This index does not cover the CAP TODAY “Marketplace” or “Abstracts” columns.

AACC meetings/conferences

Better technology, workflow improve patient odds, 07/16:66

Painstaking process of drug monitoring, 08/16:01

As diabetic CKD takes toll, work on tests continues, 09/16:01

When pain management testing calls for a consult, 10/16:50

AACC annual meeting, 10/16:72

American Board of Pathology

ABP seeks volunteers to help shape next-generation MOC, 08/16:14

American Society for Microbiology

Labs enter a MALDI-TOF state of mind, 10/16:01

Who, what, when? Bringing order to influenza testing, 11/16:05

AMP molecular case reports

Metastatic cancer of unknown primary: diagnostic challenges, 05/16:12

SS18-SSX2 fusion transcript in the diagnosis of a poorly differentiated synovial sarcoma, 06/16:88

A rare case of Diamond Blackfan anemia: identifying the causative mutation using NGS, 07/16:52

A new case of severe hemophilia and Moyamoya (SHAM) syndrome, 08/16:74

ALK-negative anaplastic large T-cell lymphoma with a complex karyotype and *DUSP22* gene rearrangement, 09/16:49

Vanishing roles in tissue microdissection revalued in salvaging a melanoma with micrometastasis for *BRAF* V600E mutation detection, 10/16:44

Detection of cnLOH as a sole abnormality in the diagnosis of myelodysplastic syndrome, 11/16:82

Isolated hepatic neuroendocrine tumor expressing albumin mRNA and arginase-1, 12/16:40

Analyzers (see Instrumentation/instrument product guides)

Anemia

A rare case of Diamond Blackfan anemia: identifying the causative mutation using NGS, 07/16:52

Art inspired by pathology

Inspired by pathology, connected through art, 09/16:80

Automation

Laboratory automation systems and workcells, 09/16:28

Billing/revenue cycle management

Clampdowns on out-of-network billing climb, 06/16:01

Bioinformatics

Next-gen sequencing workflow in full spate, 04/16:01

Biomarkers

Yale researchers dig for new kidney biomarkers, 10/16:18

Procalcitonin passes automation hurdle, 12/16:01

Biotin

Beauty fad's ugly downside: test interference, 09/16:01

Bladder cancer

Bladder cancer preps for its star turn, 02/16:01

Blood/coagulation/hematology (see also Phlebotomy)

Hemostasis testing guide now out in new edition, 06/16:70

Blood banking/transfusion

26 'hot seat' cases in new transfusion medicine text, 02/16:48

On guard against daratumumab interference, 10/16:01

Blood bank information systems, 10/16:30

Cancer (see also Leukemia and Breast cancer/breast health)

Cases focus on *ALK* false-negs, post-transplant tumor, 01/16:05

Bladder cancer preps for its star turn, 02/16:01

Community hospitals keep time on tissue handling, 02/16:03

Non-melanocytic lesions—preventing pitfalls in diagnosis, 02/16:64

Immunotherapy steers focus to microenvironment, 03/16:01

Prostate pointers—PIN, ASAP, mimics, and markers, 04/16:40

The challenge of intraductal carcinoma of prostate, 04/16:44

Metastatic cancer of unknown primary: diagnostic challenges, 05/16:12

SS18-SSX2 fusion transcript in the diagnosis of a poorly differentiated synovial sarcoma, 06/16:88

For certain thyroid lesions, the shift is on, 07/16:01

Study finds what could be a key to prostate cancer progression, 10/16:01

Big hopes, bigger questions with PD-L1, 11/16:01

Epi proColon fires up hopes of capturing screening dodgers, 11/16:01

Lymphoid neoplasms: Steven Swerdlow on classification revisions, 12/16:01

Highs, lows of immune checkpoint inhibitors, 12/16:01

Cancer staging manual

New protocols on deck as pathology helps reshape cancer staging, 12/16:16

CAP '15 meeting

Non-melanocytic lesions—preventing pitfalls in diagnosis, 02/16:64

Prostate pointers—PIN, ASAP, mimics, and markers, 04/16:40

The challenge of intraductal carcinoma of prostate, 04/16:44

CAP '16 meeting

All-star team presented with CAP and Foundation awards, 10/16:91

Lymphoid neoplasms: Steven Swerdlow on classification revisions, 12/16:01

CAP Board of Governors

Throw your hat in the ring? Four CAP Board of Governor positions to open, 01/16:57

CAP lab accreditation/checklists/protocols

New tests, technologies at center of 2016 CAP checklist revamp, 08/16:01

In situ hybridization: more harmony across checklists, 08/16:60

Less legwork, more clarity seen in personnel changes, 09/16:66

CAP news

Proficiency tests on multiple instruments: CMS clarifies regs, 03/16:34

CAP Press

26 'hot seat' cases in new transfusion medicine text, 02/16:48

Hemostasis testing guide now out in new edition, 06/16:70

CAP programs/products/services (see also Proficiency testing)

Glass slide programs to have latest terms, ancillary clues, 08/16:29

CAP TODAY webinars

PD-L1, other targeted therapies await more standardized IHC, 02/16:01

FilmArray ME panel—clinical trial to 1st clinical test, 05/16:24

Making the best of PD-L1 IHC testing, 07/16:01

Method or test? Providing clarity to clinicians on NGS, 09/16:07

CAP webinars

Immunotherapy steers focus to microenvironment, 03/16:01

FilmArray GI: findings from first months of clinical use, 04/16:64

Dip in revenue, many technical component codes in for a hit, 08/16:04

Cardiovascular disease/cardiac markers

Heart biopsy the first step on a complex path, 05/16:01

More clarity over time for heart failure biomarkers, 06/16:20

Centers for Medicare & Medicaid Services

Proficiency tests on multiple instruments: CMS clarifies regs, 03/16:34

CLIA

Proficiency tests on multiple instruments: CMS clarifies regs, 03/16:34

CLSI (formerly NCCLS)

IQCP without agony at the point of care, 04/16:01

Coagulation (see Blood/coagulation/hematology)

Colon

Epi proColon fires up hopes of capturing screening dodgers, 11/16:01

Companion diagnostics

Rebooting IHC for companion diagnostics, 01/16:01

Consults (see Toxicology consults)

Crossword puzzle

Use your words—a cytopathology puzzle, 01/16:40

Cytopathology and More

Anal cytology: life-saving potential at low cost, 01/16:38

Use your words—a cytopathology puzzle, 01/16:40

Assessing needle core biopsy adequacy—survey of practices, 05/16:58

Paris System: a new paradigm for urinary cytology, 05/16:58

Managing adults with thyroid nodules and cancer—2015 guideline highlights, 05/16:62

The evolving management of LSIL in Pap tests, 08/16:25

Endoscopic ultrasound-guided FNA and core biopsy: Are we progressing to a best practice?, 08/16:25

Glass slide programs to have latest terms, ancillary clues, 08/16:29

Cytopathology/histology (see also Cytopathology and More)

Diabetes

As diabetic CKD takes toll, work on tests continues, 09/16:01

Diagnostic assays/markers/tests/test kits

With high-sensitivity troponins, watching and waiting continue, 05/16:01
FilmArray ME panel—clinical trial to 1st clinical test, 05/16:24
Early days, early detection, early treatment for HIV, 05/16:38
Better technology, workflow improve patient odds, 07/16:66
Beauty fad's ugly downside: test interference, 09/16:01
As diabetic CKD takes toll, work on tests continues, 09/16:01
Mass spec up front for pain management testing, 09/16:18
Labs enter a MALDI-TOF state of mind, 10/16:01
Yale researchers dig for new kidney biomarkers, 10/16:18
Epi proColon fires up hopes of capturing screening dodgers, 11/16:01
Up next for MALDI-TOF mass spec: AFB, molds, 11/16:01
Sequencing goes deep to find rubella in uveitis patient, 11/16:46
Procalcitonin passes automation hurdle, 12/16:01

Drug treatments/trials/dosing

Quizzed in Ansbach, then key to a drug trial for mast cell disease, 09/15:01
On guard against daratumumab interference, 10/16:01

Drugs of abuse

Better technology, workflow improve patient odds, 07/16:66
Painstaking process of drug monitoring, 08/16:01

Editorials of CAP president (see From the President's Desk)

Estimated glomerular filtration rate (eGFR) (see Kidney disease)

Executive War College

In *C. diff* and cardiac care, lab steps up decision support, 07/16:05
Not fit to test: battling high hemolysis rates in the ED, 08/16:22

Fluoroquinolone-resistant *Escherichia coli*

No answers yet for prostate biopsy infection, 01/16:06

From the President's Desk

Flexibility matters, 01/16:11

Why we need to talk, 02/16:11

More transparency, more accountability, 03/16:11

Our role in population health, 04/16:11

Stepping outside our comfort zones, 05/16:11

CAP16: All in one place, 06/16:11

Keeping your eye on the ball—and not, 07/16:11

Let's close the knowledge gap, 08/16:17

In the eye of the brainstorm, 09/16:11

How clarity can bridge our silos, 10/16:11

When diagnosticians converse, 11/16:11

Where we direct our gaze, 12/16:11

Gastrointestinal panel

FilmArray GI: findings from first months of clinical use, 04/16:64

Genetics/genetic testing (see also Next-generation sequencing)

Mosaicism adds to challenge in molecular diagnostics, 05/16:44

Glucose/insulin/blood sugars

Glucose PT criteria reset stirs standards debate, 06/16:01

Hematopathology

Roads cross in clonal hematopoiesis and stem cell studies, 03/16:24

Hemolysis

Not fit to test: battling high hemolysis rates in the ED, 08/16:22

HIV

Early days, early detection, early treatment for HIV, 05/16:38

Finding the fast track with '14 HIV algorithm, 06/16:01

Human papillomavirus

Anal cytology: life-saving potential at low cost, 01/16:38

Immunohistochemistry

Rebooting IHC for companion diagnostics, 01/16:01

PD-L1, other targeted therapies await more standardized IHC, 02/16:01

Immunotherapy

Immunotherapy steers focus to microenvironment, 03/16:01

Highs, lows of immune checkpoint inhibitors, 12/16:01

In situ hybridization

In situ hybridization: more harmony across checklists, 08/16:60

Infection control

For infection control, PCR and culture compared, 01/16:28

Studies split on pre-prostate TRUS biopsy screening, 10/16:05

Infectious disease

Who, what, when? Bringing order to influenza testing, 11/16:05

Influenza

In late flu season, early signs of new tests' impact, 04/16:01

Who, what, when? Bringing order to influenza testing, 11/16:05

Informatics/information technology (see Lab information systems, software technologies)

Instrumentation/instrument product guides

Coagulation analyzers, 01/16:18

Bedside glucose testing systems, 01/16:41

Coagulation analyzers—point of care, self-monitoring, 03/16:18

Chemistry analyzers for low-volume laboratories, 04/16:20

In vitro blood gas analyzers, 05/16:64

Automated immunoassay analyzers, 06/16:30

Chemistry analyzers for mid- and high-volume labs, 07/16:32

Automated tissue processors, 08/16:32

Tissue-embedding instruments, 08/16:37

Automated microtomes, 08/16:40

Automated staining instruments, 08/16:43
Laboratory automation systems and workcells, 09/16:28
Automated molecular platforms, 10/16:56
Hematology analyzers, 11/16:56
Next-generation sequencing instruments, 12/16:22

Insulin (see Glucose/insulin/blood sugars)

Kidney disease/kidney injury

Yale researchers dig for new kidney biomarkers, 10/16:18

Lab accreditation (see CAP lab accreditation/checklists/protocols)

Lab information systems, software technologies

Anatomic pathology computer systems, 02/16:23
Broadening the productivity spectrum with middleware, 03/16:01
Next-gen sequencing workflow in full spate, 04/16:01
Beyond connectivity: middleware's shifting shape, 04/16:05
Laboratory-provider links software, 04/16:47
Billing/accounts receivable/RCM systems, 05/16:17
Blood bank information systems, 10/16:30
Laboratory information systems, 11/16:22
LIS of today a far cry from its ancestors, 11/16:22
What molecular diagnostics laboratory systems offer, 12/16:50

Laboratory administration/management

Lab shoots for better phlebotomy service, satisfied patients, 03/16:46
Laboratory 2.0: Changing the conversation, 07/16:01

Laboratory consolidation/mergers/sales

Fresh options fuel lab asset reshuffle, 05/16:01
All for one, one for all? Laboratory consolidation, 06/16:05

Laboratory efficiency/cost-savings measures

Lab shoots for better phlebotomy service, satisfied patients, 03/16:46
Laboratory 2.0: Changing the conversation, 07/16:01

In *C. diff* and cardiac care, lab steps up decision support, 07/16:05

Laboratory profiles

Lab shoots for better phlebotomy service, satisfied patients, 03/16:46

Laboratory test problems/pitfalls

Not fit to test: battling high hemolysis rates in the ED, 08/16:22

Letters

Ductal carcinoma in situ, 02/16:11

Active surveillance, 02/16:14

Laboratory analytics, 02/16:14

Incorrect ad, 11/16:13

Immunoassay interference, 11/16:13

Prostate cancer, 11/16:13

Liquid biopsy

Liquid biopsy – much to do about something, 03/16:01

MALDI-TOF (see Mass spectrometry)

Management issues (see Laboratory administration/management)

Mass spectrometry

Mass spec up front for pain management testing, 09/16:18

Labs enter a MALDI-TOF state of mind, 10/16:01

Up next for MALDI-TOF mass spec: AFB, molds, 11/16:01

Mast cell disease/mastocytosis

Quizzed in Ansbach, then key to a drug trial for mast cell disease, 09/15:01

Medicare/Medicaid (see Physician fee schedule)

Meningitis/encephalitis

FilmArray ME panel – clinical trial to 1st clinical test, 05/16:24

Metagenomic deep sequencing

Sequencing goes deep to find rubella in uveitis patient, 11/16:46

Microbiology

When to fire up large multiplex PCR?, 01/16:01

For infection control, PCR and culture compared, 01/16:28

Urine preanalytics guideline effort highlights data need, 02/16:01

Cutting cultures: the move to all molecular in virology, 03/16:05

FilmArray GI: findings from first months of clinical use, 04/16:64

Middleware

Broadening the productivity spectrum with middleware, 03/16:01

Beyond connectivity: middleware's shifting shape, 04/16:05

Molecular pathology/diagnostics (see also Polymerase chain reaction technology and AMP molecular case reports)

Roads cross in clonal hematopoiesis and stem cell studies, 03/16:24

Diagnosing polycythemia vera, 04/16:16

Mosaicism adds to challenge in molecular diagnostics, 05/16:44

What molecular diagnostics laboratory systems offer, 12/16:50

Mosaicism

Mosaicism adds to challenge in molecular diagnostics, 05/16:44

Myocardial infarction (see Cardiovascular disease/cardiac markers)

NCCLS (see CLSI)

Needle core biopsies

Assessing needle core biopsy adequacy – survey of practices, 05/16:58

Newsbytes

Negotiating SaaS contracts: what to do and what to avoid, 01/16:54

FDA testing bioinformatics platform, 01/16:55

CPSI to purchase Healthland, 01/16:55

Carequality collaborative releases interoperability framework, 01/16:55
Xifin enters partnership with QualityStar, 01/16:56
Psyche recognized by magazine for CIOs, 01/16:56
IT staffing considerations for the NGS laboratory, 02/16:77
Meaningful use to end as EHR incentive programs revamped, 02/16:78
ONC releases interactive compendium of health IT policies by state, 02/16:79
Visiun adds test utilization to cloud-based analytics systems, 02/16:79
Digital consults: options for getting from here to there, 03/16:62
New Cerner website focuses on SMART on FHIR tools, 03/16:63
Orchard forms partnership with Marshfield health system, 03/16:63
KLAS Enterprises announces annual vendor honors, 03/16:64
ONC touts role of HIPAA in advancing interoperability, 03/16:64
Oracle offers software that supports precision medicine, 03/16:64
Finding, fixing, and foiling shadow IT problems, 04/16:72
HHS website highlights interoperability projects, 04/16:73
BBCS offers discount to Blood Centers of America, 04/16:73
Ambry Genetics debuts free human genomes database, 04/16:73
Omnyx launches digital pathology software, 04/16:74
Sunquest acquires GeneInsight, 05/16:77
Technidata launches lab system, 05/16:77
HHS seeks feedback on measuring growth of interoperability in health IT, 05/16:77
Xifin upgrades collaboration and clinical data-management platform, 05/16:77
Kalorama Information releases report on global LIS market, 05/16:77
Aspyra announces LIS installation, 05/16:77
ONC interoperability project underway, with CAP input, 06/16:94
Sunquest offering new version of lab system, 06/16:94
AP-Visions releases pain-management module, 06/16:95
BBCS awarded contracts, 06/16:95
SCC software secures ONC HIT certification, 06/16:95
How to minimize cybersecurity risks from business associates, 07/16:99
Medical societies urge feds to alter interoperability measures, 07/16:99
Optra debuts digital pathology system in subscription model, 07/16:99
Contracts and installations, 07/16:99

Document-management systems worthwhile if you go extra mile, 08/16:80
HHS releases guidance on ransomware attacks, 08/16:82
McKesson alters IT business, 08/16:82
Leica sample-tracking system added to Psyche products, 08/16:82
Agilent buys iLab Solutions, 08/16:82
Graph database technology: what it can do given the chance, 09/16:90
Group seeks participants to help foreign labs meet needs, 09/16:90
ONC tool grades C-CDA documents for interoperability, 09/16:92
BBCS releases new version of ABO Express, 09/16:92
Prototype devise provides fast bacterial infection diagnosis, 09/16:92
Voicebrook announces software installation, 09/16:92
Process improvement software more than online suggestion box, 10/16:100
Viewics launches analytics tool for diabetes management, 10/16:102
Hc1.com joins forces with Experian Health, 10/16:102

Outreach labs

Is the value of hospital lab outreach underrated?, 12/16:05

Pain management

Painstaking process of drug monitoring, 08/16:01

Mass spec up front for pain management testing, 09/16:18

When pain management testing calls for a consult, 10/16:50

Pap tests (see Cytopathology and More)

Pathologist training/education

ABP seeks volunteers to help shape next-generation MOC, 08/16:14

Payment issues

Clampdowns on out-of-network billing climb, 06/16:01

PD-L1 testing/expression

Making the best of PD-L1 IHC testing, 07/16:01

Big hopes, bigger questions with PD-L1, 11/16:01

Recent approvals and the pipeline, 12/16:50

Phlebotomy

Lab shoots for better phlebotomy service, satisfied patients, 03/16:46

Physician fee schedule

Dip in revenue, any technical component codes in for a hit, 08/16:04

Medicare revises 2017 discount on add-on codes, 12/16:08

Point-of-care testing/guidelines/standards

IQCP without agony at the point of care, 04/16:01

Making a smooth pivot to point-of-care IQCP, 05/16:03

Polycythemia vera

Diagnosing polycythemia vera, 04/16:16

Polymerase chain reaction (PCR) technology

When to fire up large multiplex PCR?, 01/16:01

For infection control, PCR and culture compared, 01/16:28

Procalcitonin

Procalcitonin passes automation hurdle, 12/16:01

Proficiency testing (see also CAP programs/products/services)

Proficiency tests on multiple instruments: CMS clarifies regs, 03/16:34

Glucose PT criteria reset stirs standards debate, 06/16:01

Project Santa Fe

Laboratory 2.0: Changing the conversation, 07/16:01

Prostate

No answers yet for prostate biopsy infection, 01/16:06

Prostate pointers—PIN, ASAP, mimics, and markers, 04/16:40

The challenge of intraductal carcinoma of prostate, 04/16:44

Study finds what could be a key to prostate cancer progression, 10/16:01

Studies split on pre-prostate TRUS biopsy screening, 10/16:05

Public health information/public health laboratories

In praise of the path less traveled: public health labs, 07/16:75

Put it on the Board

2016 may be year of action on laboratory-developed tests, 01/16:62

Kaiser Permanente to acquire Group Health, 01/16:61

Tango Infinity cleared, 01/16:61

Beckman sells genomic services business, 01/16:61

Clearance for Luminex respiratory panel, 01/16:61
LabCorp to buy Pathology Inc., 01/16:61
CLIA waiver for Cepheid's POC flu/RSV test, 01/16:61
Case-based guide to practice management, 01/16:61
FDA open to whole-slide imaging as class II device, 02/16:86
Siemens' high-volume coag analyzer cleared, 02/16:85
With Alere purchase, Abbott claims POC test mantle, 02/16:85
\$1.3 billion for Affymetrix, 02/16:85
Illumina pursues blood-based cancer screening, 02/16:85
45% of pathologists report burnout, 02/16:85
CMS cites deficiencies at Theranos lab, 02/16:85
Case raises uncertainty on autopsy's legal status, 03/16:70
ConfirmMDx added to NCCN guidelines, 03/16:69
Higher-throughput FilmArray system cleared, 03/16:69
CE for BD blood separation technology, 03/16:69
Most DTC genetic results not shared with doctors, 03/16:69
Blue Cross covers Sequenom tests in California, 03/16:69
Logistics hurdles overcome for single Pap-HPV report, 04/16:82
In EHR inboxes, test results outnumbered, 04/16:81
Automated cervical cancer screening system approved, 04/16:81
Cell-free DNA-Seq kits gain ISO 13485 certification, 04/16:81
Mass General will study Philips' WSI for primary Dx, 04/16:81
AMP criticizes FDA action on lab-developed Zika test, 04/16:81
DiaSorin to acquire Focus Diagnostics, 04/16:81
FDA approves Abbott companion diagnostic for CLL, 05/16:82
SelectMDx study published in *European Urology*, 05/16:82
Quest Zika test authorized for emergency use, 05/16:82
Epigenomics receives FDA approval for Epi proColon, 05/16:82
Leica to collaborate on companion diagnostic, 05/16:82
Guidance seen as sign of FDA openness to digital pathology, 06/16:102
Eco effort cuts biohazard waste, saves money, 06/16:101
EGFR mutation liquid biopsy OK'd as companion Dx, 06/16:101
Qiagen adds Horizon QC to next-generation system, 06/16:101
Siemens enters molecular oncology services market, 06/16:101
Roche PD-L1 tabbed as complementary test, 06/16:101
Michel: The good, bad, and ugly that labs need to know, 07/16:106

FDA allows use of two more Zika tests, 07/16:105
Structured illumination microscopy used to detect nephrotic kidney disease, 07/16:105
CAP lands deeming authority as California lab accreditor, 7/16:105
LabCorp will acquire Sequenom, 08/16:88
New York ends state PT services, 08/16:88
St. Jude lands CAP ISO 15189 accreditation, 08/16:88
Epigenomics' DNA test included in CRC guideline, 08/16:88
OSU to deploy Inspirata digital pathology solution, 08/16:88
Mindray's clinical chemistry analyzer cleared, 08/16:87
Successful Keytruda trial stopped early, 08/16:87
Top court clarifies autopsy's place in Texas law, 08/16:87
EUA for Siemens Zika assay, 08/16:87
AMP lays out clinical utility standard for molecular Dx, 09/16:102
Alere's RSV test cleared, 09/16:101
HHS announces \$15.5 million for rapid Zika tests, 09/16:101
MammaPrint may help more women avoid chemo, 09/16:101

FDA clears Ortho Vision Max analyzer, 12/16:65

Q&A

Are CDC recommendations to screen baby boomers for hepatitis C virus the most prudent way to capture those individuals who will progress to liver cancer? (Hillyard), 01/16:56

If a pathologist in a private group that has a professional contract with a health system works a lot of hours on an EHR or LIS installation and is not compensated for his or her time, could that be considered an inducement under the anti-kickback law? (Wood), 01/16:56

Should I validate new reagent lot numbers for chemistry and hematology reagents? (Martire), 01/16:56

Requirements of primary Pap screeners and requirements when having Pap tests screened at another hospital (Crothers), 02/16:80

Should we place an environmental organism in our MALDI-TOF library and report it? (Procop), 02/16:80

Are there labs that use postanalytic comparisons of clinical lab results during the testing interval between QA checks to ascertain if the autoverified results being release are reasonable? (Schifman), 03/16:60

Do slide identifications for urine or sputum eosinophils need to be in the IQCP? (Liubinskas), 03/16:60

For cases of microcytosis with high RBC count but without anemia, should we give the same recommendation as for an anemic patient? (Oliveira), 04/16:76

How do most hospital labs perform and report post-vasectomy semen checks? (Nelson), 04/16:76

What lab test should be used to monitor the effect of the heart failure medication Entresto (sacubitril/valsartan)? (Januzzi), 5/16:76

Establishing a department policy to address changes to diagnoses after receiving a consultation report (Branton), 05/16:76

The growing trend of using type A fresh frozen plasma in emergencies instead of type AB (Dunbar), 06/16:93

What is the value of doing incubated mixing studies on prolonged prothrombin times? (Moser), 06/16:93

What are the steps to validating maximum dilution for certain analytes when the stated manufacturer dilution is not enough? (Horowitz), 07/16:100

What is considered best practice for verifying platelet-poor plasma for coagulation? (Johari), 07/16:100

When you result the platelet count from the sodium citrate tube, is it a CAP requirement to attach a comment? (Darden), 08/16:79

Should a patient with a hematocrit greater than 55 percent be redrawn for correction always or only when prothrombin time and partial prothrombin time are elevated? (Goodwin), 08/16:79

If the white cell count is very high, should we count more than 100 cells for a manual differential? (Mahe), 09/16:89

What is the recommended method to replace the Bayer Clinitest reagent tablets for reducing substances? (Matney), 09/16:90

Guidelines for proper handling and processing of blood specimens collected in serum separator tubes (Green), 10/16:99

Availability of regulations guiding the practice of taking additional blood samples from a patient even though there are no orders for the blood samples (Alter), 10/16:99

Understanding the Gleason grading system (Zhou), 11/16:92

Requirement for comparability studies between the blood gas hemoglobin and the hematology analyzer hemoglobin results (Graff), 11/16:92

The proper way to correct CBC parameters for lipemia and bilirubinemia (Lewis), 11/16:93

Making an informed decision about an employee's fitness for work when HIPAA blocks vital information (Blake), 11/16:93

Availability of guidelines on microsatellite instability analysis by immunohistochemistry on colorectal adenocarcinomas (Bellizzi), 12/16:58

CAP's use of a Wright-Giemsa stain for the urine eosinophils on proficiency testing (Vergara-Lluri), 12/16:59

Quality assurance/quality control/quality improvement

IQCP without agony at the point of care, 04/16:01

Making a smooth pivot to point-of-care IQCP, 05/16:03

Self-testing (see Point-of-care testing)
