2003 CAP TODAY Article Index

Note: This index does not include CAP TODAY “Marketplace” or “Abstracts”

AACC meetings
From the showroom floor: Products and announcements from AACC, September 2003:82
Facing up to anti-animal antibody interference, October 2003:76
Making the call on assay interference, November 2003:72

AIDS/HIV/other bloodborne diseases
Rapid HIV test whips up waiver debate, February 2003:1
Good is getting better in HIV viral load testing, April 2003:28

Alzheimer’s disease
Digging deep for the roots of dementia, July 2003:1

American Board of Pathology
American Board of Pathology names new EVP, August 2003:62

Analyzer surveys (see Instrumentation/instrument surveys)

Anthrax (see Bioterrorism)

Antiangiogenesis drugs
In cancer fight, antiangiogenesis drugs still in play, February 2003:6

Arthritis
Assay takes arthritis out of the gray zone, June 2003:1

ASCP/CAP meetings
It’s ‘so long’ to business-as-usual at CAP meeting, April 2003:5

Automation
Push for patient safety is nudge for automation (laboratory automation systems and workcells), May 2003:33
To lower costs, one lab takes automation to task, July 2003:54
Making room for robotics in molecular labs, August 2003:1

Bethesda System
Judging specimen adequacy by Bethesda ’01 criteria, January 2003:61
Coming soon: New Bethesda System atlas and Web site, May 2003:68

Billing
Speaking volumes on point-of-care glucose billing, January 2003:1
Ten Commandments of professional component billing, March 2003:55
**Bioterrorism**
Fighting fear as well as smallpox in debate over vaccinations, *May 2003:1*
Commentary: A call to bare arms vs. smallpox, *May 2003:12*
New health care computer model set to battle bioterrorism (Newsbytes), *November 2003:101*

**Blood/coagulation/hematology**
Identity crisis persists— which D-dimer? *January 2003:1*
For warfarin monitoring in patients with lupus inhibitors, review PT method, *January 2003:18*
Q&A: What tests should be used to diagnose recurrent spontaneous abortion? (Triplett), *January 2003:68*
Q&A: When to use TEG, and who should operate it and interpret the results (Chandler), *March 2003:77*
Sticky business with tube holders, *April 2003:1*
Q&A: Acceptable decreases in protein C or S following trauma (Van Cott), *April 2003:79*
New hemoglobin disorders atlas one for the books, *May 2003:5*
Q&A: Initiating thrombolytic therapy before lab results for APTT and PT are received (Teruya), *May 2003:98*
Q&A: What is the half-life of low-molecular-weight heparin and what is the principle behind chromogenic anti-Xa test? (Olson), *June 2003:105*
Making room for robotics in molecular labs, *August 2003:1*
Chill out—a new idea on platelet storage, *August 2003:1*
Q&A: What product can be used to perform calibration verification for methemoglobin? (Burnett), *August 2003:89*
Q&A: Are there criteria to help labs decide which CBC results need to be reviewed, when manual smears need to be reviewed, and who should do these reviews? (Peterson), *August 2003:89*
Q&A: Distinguishing between manual and automated methods for retic counting (Novak), *August 2003:90*
Riding up and down on the ULR seesaw, *September 2003:1*
In two settings, plusses pile up for POC coag testing, *September 2003:58*
Q&A: Using a positive control and proficiency testing for Heinz body prep test (Novak), *September 2003:94*
Q&A: What is a suitable method for handling lab requests for specific gravity on other body fluids? (Novak), *October 2003:86*
Thinning out a dense affair: Cancer, clots, *November 2003:1*
KB assay still ahead despite tough rival, *November 2003:1*
Rooting out ‘invisible’ blood collection errors, *December 2003:26*
Q&A: Changes in International Sensitivity Index for thromboplastin reagents and its effect on international normalized ratio values (Adcock), *December 2003:76*
Q&A: Standards for tests affected by using plastic tubes instead of glass (Makar), *December 2003:76*
**Blood banking/transfusion**
Riding up and down on the ULR seesaw, *September 2003:1*
Waiting game nearly over for ISBT 128, *October 2003:1*
ISBT 128 revved up and ready to roll (blood bank information systems), *October 2003:38*
Squeezing out platelet contamination, *November 2003:5*

**Board of Governors**
Votes counted and governors seated, *October 2003:62*

**Brief case**
Diagnosing *Clostridium difficile* diarrhea and colitis, *September 2003:44*

**Calibration verification**
Calibration verification: Language barrier falls with checklist change, *March 2003:48*

**Cancer**
Q&A: Reliable methodological guidelines to help determine size of a breast tumor (Weidner), *January 2003:68*
In cancer fight, antiangiogenesis drugs still in play, *February 2003:6*
A supporting role for serum HER2/neu? *March 2003:1*
Getting the most out of prostate workups, *March 2003:1*
At every stage, labs stay in step with CML, *May 2003:1*
Commentary: Too much emphasis on screening interval, too little on safety, *May 2003:12*
Cervical cancer screening guidelines—then and now, *May 2003:63*
PAP/NGC Recommended Reading: Can mucinous lesions be diagnosed reliably by core needle biopsy? *May 2003:65*
PAP/NGC Q&A: Use of checklist question CYP.0440 and how it applies to Pap smears, *May 2003:68*
Q&A: Assessing single nodes with multiple small deposits and classifying them based on the largest single metastatic focus or the aggregate dimension (Fitzgibbons), *July 2003:130*
Q&A: Separating malignant melanoma into Clark levels III and IV (Bozzo), *July 2003:130*
Lowdown on PSA levels—should current threshold drop? *September 2003:5*
Thinning out a dense affair: Cancer, clots, *November 2003:1*
Q&A: Tumor deposits in pericolonic/perirectal adipose tissue away from primary cancer source: Are they tumor nodules or extension of lymph nodes? (Compton), *November 2003:100*
**CAP ’03**
It’s ‘so long’ to business-as-usual at CAP meeting, *April 2003:5*
Eight of the great lauded at CAP ’03 annual meeting, *October 2003:62*
Votes counted and governors seated, *October 2003:62*
CAP annual stated meeting minutes, *October 2003:63*

**CAP Foundation**
Humanitarian grants reach out to areas in need, *November 2003:91*
Brimhall receives first Rippey award, *November 2003:91*
Estate planning update: Congress close to finalizing charitable giving act, *November 2003:91*
More than 50 grants in 2003, *November 2003:91*

**CAP checklists/guidelines/practice parameters/publications**
Molecular pathology inspections: Rhyme and reason, *February 2003:62*
Calibration verification: Language barrier falls with checklist change, *March 2003:48*
New hemoglobin disorders atlas one for the books, *May 2003:5*
Getting blood gas laboratories into tip-top shape, *July 2003:108*
Flow cytometry’s 10-most-wanted checklist items, *December 2003:50*

**CAP PathFocus**
Apples to apples to oranges—comparing lab practices, *June 2003:14*

**Capitol Scan**
Support for Part A pay, *January 2003:69*
CAP backs smallpox plan, *January 2003:69*
TC ‘grandfather’ extended, *January 2003:70*
TCs are up for outpatient surgical pathology, *January 2003:70*
A law in need of touchup, *January 2003:70*
Telemedicine in Minnesota, *February 2003:80*
Biological agent reports, *February 2003:80*
Thompson picks Dr. Debra Leonard, *February 2003:81*
Independent lab TC bills, *February 2003:81*
Spending bill saves Medicare fees, *March 2003:118*
Rapid HIV test wins waiver, *March 2003:118*
Independent laboratory cost survey, *March 2003:118*
Groups back CAP on autopsy photos, *March 2003:118*
Pathology groups working together, *March 2003:118*
QA for rapid HIV testing, *April 2003:83*
Group formulates IHC recommendations, *April 2003:83*
Minnesota physicians see flaw in telemedicine law, *April 2003:84*
Grassroots work for reform pays off, *April 2003:84*
Proving the value of genetic tests, *May 2003:95*
Too much still unknown about direct access testing, *May 2003:95*
A genetic test bill that complicates care, May 2003:96
Safe-harbor exemptions in autopsy photo laws, May 2003:97
SARS and health care worker safety, June 2003:102
Evaluating immunoassays, June 2003:103
Independent labs and TC services, June 2003:103
Protecting access to autopsy photos, June 2003:104
Medicare enrollment changes for providers, June 2003:104
Coverage for DNA-based tests, July 2003:128
Licensure rules for technologists, others, July 2003:128
Direct billing for outpatient pathology services, July 2003:129
Advocacy school scholarships, July 2003:129
Pharmacists’ scope of practice limited in New Jersey, August 2003:91
It’s not over, say medical liability reform supporters, August 2003:91
CAP governor wins seat on AMA council, August 2003:92
Physicians to bear burden of Medicare ID changes, August 2003:92
Federal funds for forensic sciences, September 2003:96
Weighing in on new CPT test codes, September 2003:96
Lipid testing coverage edit, September 2003:96
Automatic payment adjustments canceled, September 2003:97
Voluntary reporting system for medical errors, September 2003:97
Is state oversight over? October 2003:87
Freezing blood payments, October 2003:88
CPT coding edits must go, October 2003:88
In tentative agreement: Physician fee increase, no copay, November 2003:98
Payment set for 6 new codes, November 2003:98
Pathology coding decision reversed, November 2003:99
What’s ‘excessive’? November 2003:99
Blood pay cuts are out, frozen pay rates are in, December 2003:74
More pathology coding edits, December 2003:74
A boost for SNOMED, December 2003:74
New fecal-occult blood test coverage, December 2003:75
Physician self-referral regs moving forward, December 2003:75

**Cardiovascular disease/cardiac markers**
Better cardiac calls: New marker for ischemia helps rule out ACS, June 2003:82
Detecting acute coronary syndrome when seconds count, July 2003:112
Q&A: What is the most cost-efficient testing for B-type natriuretic peptide? (Apple), December 2003:76

**CLIA**
Lab Accreditation Program in sync with CLIA, February 2003:59
With ’03 regulation, CLIA ’88 closes QC loop, March 2003:5
FDA puts ASR rule back on the table, October 2003:1
Commentary
Too much emphasis on screening interval, too little on safety, May 2003:12
A call to bare arms vs. smallpox, May 2003:12

Company profiles
Left to its own devices, Dade puts pedal to the mettle, November 2003:92

Consolidation
Taking on Goliaths, smaller practices find way to succeed, April 2003:1

Corrections/clarifications
Correction, November 2003:6

CPT questions/coding
New CPT and ICD-9-CM codes for cervical cytology services, January 2003:64
Use of code 88302 and sterilization procedures, February 2003:80
Category III codes and CPT codes, February 2003:80
Use of codes 88331 and/or 88332, April 2003:84
Changes to codes 38220 and 38221, April 2003:84
Proving the value of genetic tests, May 2003:95
Use of codes 88305 and/or 88307 and oriented needle-localization lumpectomy specimen, June 2003:102
Use of code 76098 and evaluating the specimen mammogram, June 2003:102
How do you code transabdominal hysterectomy with bilateral salpingoopherectomy? October 2003:87
What code(s) should be used to bill for liquid-based cytology HPV testing when using Ventana technique? October 2003:87
Is it appropriate to bill for processing and staining specimens when the slide yields nondiagnostic results due to an inadequate specimen or insufficient number of cells? December 2003:74
Use of code 88309 and billing for two services performed on the same specimen, December 2003:74

Creutzfeldt-Jakob disease (see Prion disease)

Cystic fibrosis
CF carrier screening—making it meaningful, January 2003:1
Q&A: Adequate testing volume for sweat chloride testing in diagnosing cystic fibrosis (LeGrys), May 2003:97

Cytopathology/histology (see also PAP/NGC Programs Review)
Pap test perils, February 2003:64
Cervical cancer screening guidelines—then and now, May 2003:63
Is there a right time for cyto/histo correlation in gyn cytology? May 2003:63
A sweep for missing slides, May 2003:66
Histology labs eye new kids on the block, October 2003:1
Word and deed: Pap test malpractice case turns on lack of followup, *October 2003:22*
Two roads for HPV testing, but only one is heavily traveled, *November 2003:1*

**Data management**
Bringing order to data chaos, *November 2003:24*

**D-dimer**
Identity crisis persists—which D-dimer? *January 2003:1*

**Dementia** (*see Alzheimer’s disease)*

**Diabetes**
Q&A: Confirming positive urines for protein (Blomberg), *March 2003:78*

**Digital imaging**
With synoptic reports, big picture in a small package, *July 2003:5*

**Direct access testing**
Retail detail—hospitals mull direct access testing, *January 2003:5*

**DNA analysis**
Q&A: Can DNA analysis be done on cremated remains? (Weedn), *June 2003:105*
Stopping rogue infectious agents in the nick of time, *July 2003:24*

**Drugs of abuse**
Drug culture—ins and outs of DOA screens, *February 2003:1*

**Editorials of CAP president** (*see President’s Desk)*

**Electronic medical records**
Stopping the paper blizzard in its tracks, *January 2003:53*
Revolution draws near for electronic medical records, *August 2003:5*

**Executive War College**
Esoteric tests lighten hospital labs’ wallets, *July 2003:1*
Survival tips for the informatics and retail revolutions, *July 2003:98*

**FDA regulations**
FDA puts ASR rule back on the table, *October 2003:1*

**Firsthand Views**
The mistake of ‘kissing down’, *January 2003:82*
Hiring the successful, *February 2003:94*
From grade school to grad school, *March 2003:130*
Learning from a bad example, *April 2003:94*
Unmanaging your employees, *May 2003:114*
A great moment in management, *June 2003:118*
Pitch a tent and live there, *July 2003:142*
Work doesn’t have to be boring, *August 2003:102*
In praise of the great employee, *September 2003:110*
Starting is a resource, *October 2003:98*
Touching wallets, not lives, *November 2003:114*
Opting for opportunities, *December 2003:86*

**Flow cytometry**
Flow cytometry’s 10-most-wanted’ checklist items, *December 2003:50*

**Genetics**
CF carrier screening—making it meaningful, *January 2003:1*
Flunking the genetic test: Why we’re not ready for mass genetic screening and testing, *January 2003:45*
FDA puts ASR rule back on the table, *October 2003:1*

**Genomics**
Brisk trade in tissue for proteomics and genomics research, *March 2003:1*

**Hepatitis**
Putting some teeth into anti-HCV testing, *April 2003:1*

**HER2**
A supporting role for serum HER2/neu? *March 2003:1*

**HIPAA**
Q&A: HIPAA privacy rules and how they apply to pathology review of medical records (Travers), *February 2003:82*
HIPAA and slide donations, *May 2003:63*

**Homebrew tests**
FDA puts ASR rule back on the table, *October 2003:1*

**Immuonoassay interference**
Facing up to anti-animal antibody interference, *October 2003:76*
Making the call on assay interference, *November 2003:72*

**Industry trends**
Taking on Goliaths, smaller practices find way to succeed, *April 2003:1*
Speech-recognition software: At long last, slaying the dictation dragon, *September 2003:1*
Taking care of business (For 22 years, Dennis Padget helped labs focus on the numbers. What lies ahead?), December 2003:58

**Infectious disease surveillance**
Keeping cool-headed in the face of SARS, June 2003:1
Stopping rogue infectious agents in the nick of time, July 2003:24
Stepping up to the plate in prion surveillance, December 2003:1

**Information systems, technologies (see also Automation)**
Stopping the paper blizzard in its tracks, January 2003:53
The lowdown on 'linking' software (physician office-laboratory links software), February 2003:28
Anatomic system features: From the visual to the verbal (anatomic pathology computer systems), March 2003:24
Pulling out all the stops in the LIS marketplace, May 2003:26
Push for patient safety is nudge for automation (laboratory automation systems and workcells), May 2003:33
What billing systems need to succeed (billing/accounts receivable systems), July 2003:68
Survival tips for the informatics and retail revolutions, July 2003:98
Speech-recognition software: At long last, slaying the dictation dragon, September 2003:1
ISBT 128 revved up and ready to roll (blood bank information systems), October 2003:38
Bringing order to data chaos, November 2003:24
For vendors, LOINC a fast track to the future (laboratory information systems), November 2003:34

**Innovations in Pathology**
New autopsy texts, and the winners are . . ., March 2003:116
Close-up photography, September 2003:92
'Old' microscopes, September 2003:92
Tare it down, September 2003:92
Writing a quiz or paper, September 2003:92
Small specimens, September 2003:92
Try these filter tips, September 2003:92
Filing correctly, September 2003:92
Bench extenders, September 2003:92
Software discount, September 2003:92
Handling bones and other calcified tissue, December 2003:72
Safety (first!), December 2003:72
Dissection and fixation, December 2003:72
Decalcification, December 2003:72
Preliminary orientation, December 2003:72
Marking margins on surgical specimens of bone and soft tissue, December
Saws and other instruments, December 2003:72

**Instrumentation/instrument surveys**
Toward multi-functional analyzers (coagulation analyzers), January 2003:18
POC connectivity standard up but running slowly, February 2003:22
The nuts and bolts of selecting instruments (automated immunoassay analyzers), March 2003:72
The sweet smell of safety (bedside glucose testing systems), April 2003:34
Choosing cost-efficiency in low-volume labs (chemistry analyzers for low-volume laboratories), June 2003:32
Making your med tech minutes count (chemistry analyzers for mid- and high-volume laboratories), July 2003:30
In POC coagulation, all eyes on ease and accuracy (coagulation analyzers, point-of-care or self-monitoring), August 2003:34
The brass tacks of blood gas analyzers (in vitro blood gas analyzers), September 2003:24
Labs are hungry and hematology vendors are cooking (high-volume hematology analyzers), December 2003:32

**Ischemia**
Better cardiac calls: New marker for ischemia helps rule out ACS, June 2003:82

**Laboratory Accreditation News/CLA programs**
Commission building bridges and turning out tools, February 2003:59
Lab Accreditation Program in sync with CLIA, February 2003:59
What was granted and what was gained at CLA meeting, June 2003:65
CLA probes problems, reacts to new rules and regs, October 2003:52
Flow cytometry’s ‘10-most-wanted’ checklist items, December 2003:50

**Laboratory Accreditation News: Queries and Comments**
Automatic pipetting and evaluating the testing system for carryover effects according to checklist question CHM.24400 Phase II, June 2003:65
Must carryover studies be performed for all analytes and, if so, how often? June 2003:65
Is fluorochrome staining required for direct mycobacterial smears and microbiology checklist question MIC.32100? June 2003:65
Determining whether to reject mislabeled specimens, October 2003:52
How CLIA ’88 will affect QC requirements in the microbiology checklist, October 2003:54
