

2018 CAP TODAY Article Index

Note: This index does not cover the CAP TODAY “Marketplace” or “Abstracts” columns.

AABB

AABB seeks comments on form to streamline transfusion adverse reaction reporting, 01/18:35

AACC meetings/conferences

Devices, decisions: POC glucose in the critically ill, 01/18:10

For precision medicine, next-generation mass spec, 02/18:56

How best to test compliance and manage opioid crisis, 09/18:14

Thyroid during pregnancy: how it changes, how to test, 10/18:01

Component IgE testing offers food for thought, 11/18:05

Added-value lab services

Clin Lab 2.0: Add value, make patients better, 01/18:01

Allergy testing

Component IgE testing offers food for thought, 11/18:05

Multiplex for allergy dx: powerful, but it has its place, 12/18:01

AMP molecular case reports

Detection of rare deletion mutation in the alpha-globin gene locus establishes a diagnosis of Hb H disease, 02/18:18

NGS in the diagnosis of *RAS*opathies in histologically uninformative skin biopsy samples, 10/18:70

Detection of concurrent hematologic malignancies in solid tumor NGS testing may cause false-positive results, 11/18:14

Discordant IHC/PCR test results for mismatch repair status in colorectal adenocarcinoma, 12/18:42

Antibiotics/antibiotic resistance (see also multidrug-resistant organisms)

Why carbapenemase-producing CRE raise the bar, 03/18:12

Pros and cons of carbapenemase detection tests, 03/18:16

Anti-müllerian hormone

Satisfaction high with new automated AMH assays, 06/18:05

Artificial intelligence

Artificial intelligence: what's possible, why now?, 07/18:05

Association for Molecular Pathology

Gene testing moves cardiomyopathy analysis forward, 03/18:44

Autopsies

For autopsy service, new requirements in AP checklist, 09/18:05

Billing/revenue cycle management

Puzzling out the positive shift in the final 14-day rule, 03/18:01

Revenue cycle services: can they quell billing woes?, 10/18:05

Biomarkers

Inflammatory biomarkers foreshadow CKD, study finds, 03/18:05

Biotin

Biotin interference: answering questions, reducing the risk, 11/18:01

Blood/coagulation/hematology (see also Phlebotomy)

New *Color Atlas of Hematology* to be used 'in the wild', 01/18:03

With hemolysis, tackling the rush with the reasoning, 05/18:30

Direct oral anticoagulants and APTT, PT results, 7/18:32

Hemophilia drug interferes with APTT-based assays, 09/18:01

Hematology roundtable: rules, reference ranges, POC testing, 11/18:62

On Roche m 511 analyzer, 'everything is done from the slide', 11/18:66

Blood banking/transfusion

AABB seeks comments on form to streamline transfusion adverse reaction reporting, 01/18:35

Record and other requirements updated in new release, 08/18:12

Breast cancer/breast health

LCIS variants and DCIS: tips on telling them apart, 04/18:12

Core needle biopsy of the breast: cases and cautions, 06/18:14

Small groups, big answers in HER2 testing, 07/18:01

Burnout

Frontline dispatches from the burnout battle, 06/18:01

B-type natriuretic peptide

Serial NT-proBNP found to identify risk for adverse CV outcomes, 08/18:01

Cancer (see also Leukemia and Breast cancer/breast health)

Next-gen sequencing, 01/18:01

Molecular tumor board: a patient with *ALK*-rearranged lung cancer, 02/18:01

Scoring gastric, GEJ cancers for PD-L1 expression, 02/18:01

Clearing the air for electronic cancer checklists, 05/18:18

Molecular 'bucket list' for renal cancer, 09/18:01

Fresh incentive to look for Ph-like ALL, 10/18:01

Time now for tumor mutational burden?, 11/18:01

Cancer Genome Atlas

Molecular 'bucket list' for renal cancer, 09/18:01

CAP17 meeting

Molecular tumor board: a patient with *ALK*-rearranged lung cancer, 02/18:01

LCIS variants and DCIS: tips on telling them apart, 04/18:12

Core needle biopsy of the breast: cases and cautions, 06/18:14

CAP lab accreditation/checklists/protocols/guidelines

New HPV guideline for head, neck cancers, 02/18:01

Lung guideline goals: more tests, treatment, 03/18:01

Clearing the air for electronic cancer checklists, 05/18:18
Small groups, big answers in HER2 testing, 07/18:01
Record and other requirements updated in new release, 08/18:12
For adequacy assessments, it's time, not slides, 8/18:18
Molecular lung cancer testing: from guideline to practice, 8/18:30
For autopsy service, new requirements in AP checklist, 09/18:05
'We wanted to be the best we could possibly be', 09/18:30
New requirements for use and storage of liquid nitrogen, dry ice,
10/18:01
Imaging mass spec scores its own quality standards, 10/18:14

CAP Press

New *Color Atlas of Hematology* to be used 'in the wild', 01/18:03
For AP signout: infectious diseases pathology atlas, 03/18:32
New reference guide for ultrasound-guided FNA, 06/18:54
New *Color Atlas* aids in identifying fungal species, 10/18:32
Inside the *Color Atlas of Mycology: Candida famata*, 11/18:24

CAP programs/products/services

Smart test ordering—new program provides the tools, 02/18:05
Program zeroes in on histology, digital scan connection, 12/19:05

CAP TODAY webinars

Pros and cons of carbapenemase detection tests, 03/18:16
In cervical disease dx, agreement rises with p16 IHC use, 04/18:54
Molecular lung cancer testing: from guideline to practice, 08/18:30
Next step? The switch from stool culture to PCR, 09/18:52

Carbapenem resistance

Why carbapenemase-producing CRE raise the bar, 03/18:12

Cardiovascular disease/cardiac markers

Gene testing moves cardiomyopathy analysis forward, 03/18:44
Serial NT-proBNP found to identify risk for adverse CV outcomes,
08/18:01

Careers/employment

Turnover in phlebotomy: looking deeper than pay, 04/18:28

Centers for Medicare & Medicaid Services (CMS)

Puzzling out the positive shift in the final 14-day rule, 03/18:01

With CMS coverage policy, NGS cancer testing goes large, 07/18:01

CLSI

Procedures up to date? Fighting injury in phlebotomy, 02/18:28

Companion diagnostics

Scoring gastric, GEJ cancers for PD-L1 expression, 02/18:01

Cytopathology in Focus

Standardized reporting for breast FNAB cytology, 01/18:36

A right and a wrong way to use CAP educational kits, 01/18:36

Pap proficiency testing: what's permitted, what's not, 01/18:39

HPV vaccines: the decade in review, 01/18:40

Reporting salivary gland cytopathology, 05/18:38

For thyroid cytopathology, the 2017 Bethesda System, 05/18:38

Synergy in cytopathology and molecular microbiology, 08/18:44

Cytology social media: Facebook and Twitter as networking tools, 08/18:46

Cytopathology/histology (see also Cytopathology in Focus)

For adequacy assessments, it's time, not slides, 8/18:18

Diabetes

Inflammatory biomarkers foreshadow CKD, study finds, 03/18:05

Serial NT-proBNP found to identify risk for adverse CV outcomes, 08/18:01

Could CGM dethrone HBA_{1c} for office-based diabetes care?, 12/18:01

Diagnostic assays/markers/tests/test kits (See also Screening tests)

TB testing: new approaches to old scourge, 04/18:01

HBsAg tests, mutation in public health spotlight, 04/18:01

Fewer false-positive pregnancy results with intact hCG, 04/18:05
LCIS variants and DCIS: tips on telling them apart, 04/18:12
In cervical disease dx, agreement rises with p16 IHC use, 04/18:54
Fresh incentive to look for Ph-like ALL, 10/18:01
Thyroid during pregnancy: how it changes, how to test, 10/18:01

Diagnostic management teams

Teaming up: how one site is managing its complex liver cases, 05/18:01

Digital pathology/digital imaging/computer-assisted imaging

Digital pathology: A 1st anniversary report card, 04/18:01

Direct oral anticoagulants

Direct oral anticoagulants and APTT, PT results, 7/18:32

Drug treatments/trials/dosing (see also Pharmaceuticals)

Hemophilia drug interferes with APTT-based assays, 09/18:01

Drugs of abuse/drug overdose

How best to test compliance and manage opioid crisis, 09/18:14
Drug overdose deaths and toxicology tests: Let's talk, 12/18:10

Electronic health records/electronic medical record systems

Skirting the pitfalls of merging lab results, 05/18:01

Executive War College

Artificial intelligence: what's possible, why now?, 07/18:05
Xifin CEO: Time to tune up negotiations with payers, 09/18:61

Fine-needle aspiration

New reference guide for ultrasound-guided FNA, 06/18:54

Forensic pathology

For autopsy service, new requirements in AP checklist, 09/18:05

From the President's Desk

A shared vision for cancer staging, 01/18:09
Human factors engineering, 02/18:11
A warm welcome around the world, 03/18:11
Pathologists as medicine's first responders, 04/18:11
What we learn from member surveys, 05/18:11
CAP18: bringing it all back home, 06/18:11
From concept to fruition, 07/18:11
More influence in the AMA House, 08/18:11
Policies to protect and preserve, 09/18:11
CAP accreditation: perspective-taking 101, 10/18:11
Advocacy: Whose job is it anyway?, 11/18:11
Embracing our future at CAP18, 12/18:09

Future trends

Look, wait, buy: labs share instrument plans, 07/18:01
Artificial intelligence: what's possible, why now?, 07/18:05

Genetics/genetic testing (see also Next-generation sequencing)

Gene testing moves cardiomyopathy analysis forward, 03/18:44
For pain care and more, PGx testing at Avera Health, 07/18:20
PGx testing: recommended alleles for CYP2C19 panels, 08/18:05

Genomics (see also Pharmacogenetics)

Time now for tumor mutational burden?, 11/18:01

Genotyping

Genotype-guided dosing of warfarin: GIFT wrap-up, 01/18:01

Glucose/insulin/blood sugars

Devices, decisions: POC glucose in the critically ill, 01/18:10
POC glucose: views on volume, critical care, ACOs, 04/18:42
Could CGM dethrone HBA_{1c} for office-based diabetes care?, 12/18:01

Harmonization of lab test results

New momentum for harmonizing lab results, 11/18:01

Hemophilia

Hemophilia drug interferes with APTT-based assays, 09/18:01

Hepatitis

HBsAg tests, mutation in public health spotlight, 04/18:01

HER2

Small groups, big answers in HER2 testing, 07/18:01

Histology

Program zeroes in on histology, digital scan connection, 12/19:05

Human chorionic gonadotropin

Fewer false-positive pregnancy results with intact hCG, 04/18:05

Human papillomavirus (HPV)

HPV vaccines: the decade in review, 01/18:40

New HPV guideline for head, neck cancers, 02/18:01

Immunohistochemistry

In cervical disease dx, agreement rises with p16 IHC use, 04/18:54

Infection control/infectious disease

Labs take stock of surprising flu season, 03/18:01

For AP signout: infectious diseases pathology atlas, 03/18:32

TB testing: new approaches to old scourge, 04/18:01

HBsAg tests, mutation in public health spotlight, 04/18:01

New contender speeds ID with susceptibility testing, 05/18:01

Microbiology's shifting role in war on sepsis, 08/18:01

Next step? The switch from stool culture to PCR, 09/18:52

Influenza

Labs take stock of surprising flu season, 03/18:01

Rapid PCR rules as labs ready flu arsenal, 12/18:01

Informatics (see also Digital pathology)

Skirting the pitfalls of merging lab results, 05/18:01
Look, wait, buy: labs share instrument plans, 07/18:01
Artificial intelligence: what's possible, why now?, 07/18:05

Information systems, software

AP-LIS vendors talk reports, interfaces, protocols, 02/18:32
Anatomic pathology computer systems product guide, 02/18:34
Laboratory information system vendors on where their focus is, 11/18:36
Lab information systems product guide, 11/18:41

Instrumentation/instrument product guides

Lab needs driving coagulation analyzer market, 01/18:22
Coagulation analyzers, 01/18:25
POC glucose: views on volume, critical care, ACOs, 04/18:42
Bedside glucose testing systems, 04/18:44
Instrument acquisition, skilled labor on the table, 05/18:34
Chemistry and immunoassay analyzers for POC and low-volume labs, 06/18:40
Menu, security, consistency: vendors point to priorities, 07/18:44
Chemistry and immunoassay analyzers, 07/18:49
Coagulation analyzers, 09/18:46
Automated molecular platforms: 3 companies on what's new and next, 10/18:42
Automated molecular platforms, 10/18:45
Hematology roundtable: rules, reference ranges, POC testing, 11/18:62
On Roche m 511 analyzer, 'everything is done from the slide', 11/18:66
Hematology analyzers, 11/18:67
All eyes on standardized, scalable, integrated solutions, 12/18:34
Urinalysis instrumentation, 12/18:36

ISO standards

'We wanted to be the best we could possibly be', 09/18:30

Kidney disease/kidney injury

Inflammatory biomarkers foreshadow CKD, study finds, 03/18:05

Lab information systems, software technologies (see Information systems, software)

Laboratory equipment/devices (see also Information systems, software and Instrumentation)

Devices, decisions: POC glucose in the critically ill, 01/18:10

Look, wait, buy: labs share instrument plans, 07/18:01

Laboratory profiles

For pain care and more, PGx testing at Avera Health, 07/18:20

Legal issues/actions

Procedures up to date? Fighting injury in phlebotomy, 02/18:28

Letters

Let us bring back breast FNAB, 04/18:08

LCIS variants and DCIS, 06/18:12

HBsAg tests, 07/18:14

Electronic cancer checklists, 07/18:14

Burnout, 09/18:12

AMH immunoassays, 10/18:12

Ph-like ALL, 11/18:12

Leukemia

Fresh incentive to look for Ph-like ALL, 10/18:01

Liquid nitrogen

New requirements for use and storage of liquid nitrogen, dry ice, 10/18:01

Liver

Teaming up: how one site is managing its complex liver cases, 05/18:01

Lung cancer

Molecular tumor board: a patient with *ALK*-rearranged lung cancer, 02/18:01

Lung guideline goals: more tests, treatment, 03/18:01

Molecular lung cancer testing: from guideline to practice, 8/18:30

Mass spectrometry

For precision medicine, next-generation mass spec, 02/18:56

Imaging mass spec scores its own quality standards, 10/18:14

Medicare/Medicaid (see also Physician fee schedule)

With CMS coverage policy, NGS cancer testing goes large, 07/18:01

Xifin CEO: Time to tune up negotiations with payers, 09/18:61

Higher pay for fibrinolysins interpretation in '19 fee schedule, 12/18:22

Merging lab results

Skirting the pitfalls of merging lab results, 05/18:01

Microbiology

New contender speeds ID with susceptibility testing, 05/18:01

Microbiology's shifting role in war on sepsis, 08/18:01

Molecular pathology/diagnostics (see also Polymerase chain reaction technology and AMP molecular case reports)

Next-gen sequencing, 01/18:01

Lung guideline goals: more tests, treatment, 03/18:01

Pharmacogenomics advocates make case for wider use, 05/18:05

PGx testing: recommended alleles for *CYP2C19* panels, 08/18:05

Molecular lung cancer testing: from guideline to practice, 08/18:30

Molecular 'bucket list' for renal cancer, 09/18:01

Next step? The switch from stool culture to PCR, 09/18:52

Molecular tumor board

Molecular tumor board: a patient with *ALK*-rearranged lung cancer, 02/18:01

Multidrug-resistant organisms

Why carbapenemase-producing CRE raise the bar, 03/18:12

Pros and cons of carbapenemase detection tests, 03/18:16

Multiplex testing

Multiplex for allergy dx: powerful, but it has its place, 12/18:01

Mycology (fungi)

New *Color Atlas* aids in identifying fungal species, 10/18:32

Inside the *Color Atlas of Mycology: Candida famata*, 11/18:24

New tests/assays

New contender speeds ID with susceptibility testing, 05/18:01

Satisfaction high with new automated AMH assays, 06/18:05

Newsbytes

Why pathologists shouldn't 'pass the baton' with IT, 01/18:54

HHS offers tips to deter data breaches by past employees, 01/18:54

Xifin releases RCM offering, 01/18:54

Regenstrief Institute updates LOINC database and RELMA, 01/18:54

The many facets of a laboratory IT budget, 02/18:63

NovoPath integrates software with Philips IntelliSite system, 02/18:63

12/18:50

Xifin introduces RCM offering with machine learning-driven capability,
12/18:50

Next-generation sequencing/Sanger sequencing

Next-gen sequencing, 01/18:01

With CMS coverage policy, NGS cancer testing goes large, 07/18:01

Detection of concurrent hematologic malignancies in solid tumor NGS
testing may cause false-positive results, 11/18:14

Obituary

In memoriam, Harold H. Harrison, MD, PhD | 1951-2018, 07/18:16

Opioids

How best to test compliance and manage opioid crisis, 09/18:14

Pain management

How best to test compliance and manage opioid crisis, 09/18:14

Pathologist burnout

Women and burnout—like men, but no, 08/18:01

Payment issues

Xifin CEO: Time to tune up negotiations with payers, 09/18:61

PD-L1 testing/expression

Scoring gastric, GEJ cancers for PD-L1 expression, 02/18:01

Pharmaceuticals

Hemophilia drug interferes with APTT-based assays, 09/18:01

Pharmacogenetics/pharmacogenomics

Pharmacogenomics advocates make case for wider use, 05/18:05

Genotype-guided dosing of warfarin: GIFT wrap-up, 01/18:01

For pain care and more, PGx testing at Avera Health, 07/18:20

PGx testing: recommended alleles for *CYP2C19* panels, 08/18:05

Phlebotomy

Procedures up to date? Fighting injury in phlebotomy, 02/18:28

Turnover in phlebotomy: looking deeper than pay, 04/18:28

With hemolysis, tackling the rush with the reasoning, 05/18:30

Physician fee schedule (see also Medicare/Medicaid)

Higher pay for fibrinolysins interpretation in '19 fee schedule, 12/18:22

Point-of-care testing/guidelines/standards

Devices, decisions: POC glucose in the critically ill, 01/18:10

POC glucose: views on volume, critical care, ACOs, 04/18:42

Polymerase chain reaction (PCR) technology

Next step? The switch from stool culture to PCR, 09/18:52

Rapid PCR rules as labs ready flu arsenal, 12/18:01

Pregnancy testing

Fewer false-positive pregnancy results with intact hCG, 04/18:05

Project Santa Fe

Clin Lab 2.0: Add value, make patients better, 01/18:01

Put it on the Board

Some safety issues more gray than black and white, 01/18:58

Siemens acquires Fast Track Diagnostics, 01/18:57

Opdivo OK'd for adjuvant treatment of melanoma, 01/18:57

Horizon to develop FFPE reference standards, 01/18:57

FDA approves Ortho's Vitros HIV Combo test, 01/18:57

Perjeta approved for adjuvant treatment of HER2+ early breast cancer, 01/18:57

3rd respiratory assay cleared on Panther Fusion, 01/18:57

PreludeDx unveils predictive assay for DCIS, 02/18:74

FDA OKs BRACAnalysis CDx as companion Dx for olaparib, 02/18:74

Technopath launches anti-müllerian hormone third-party QC, 02/18:74
FDA clears calprotectin test, 02/18:73
New indication for Gilotrif in *EGFR*-mutant-positive NSCLC, 02/18:73
FDA clearance, waiver for Strep A+ for use with Sofia 2, 02/18:73
Illumina launches iSeq 100, 02/18:73
Thermo Fisher, Illumina sign agreement, 02/18:73
AMP issues recommendations for clinical *CYP2C19* genotyping allele selection, 03/18:66
Phase 3 results for Tecentriq plus Avastin in mRCC, 03/18:66
SeraCare's CNV-specific reference material for NGS, 03/18:65
Qiagen launches Therascreen PITX2 in Europe, 03/18:65
Aptima HBV Quant assay receives PMA approval, 03/18:65
Alcor's iSED used at Olympics, 03/18:65
George Lundberg joins Self Care Catalysts, 03/18:65
CMS changes proposed policy on NGS for cancer patients, 04/18:70
FDA approves new HPV test, 04/18:70
Roche launches Ventana DP 200 slide scanner, 04/18:70
FDA clear Quidel Sofia Lyme FIA for use with Sofia 2, 04/18:69
Oxford Gene Technology offers new Cytocell website, 04/18:69
FDA approves osimertinib for NSCLC, nivolumab + ipilimumab for RCC, 05/18:58
FDA Oks ThinPrep Integrated Imager, 05/18:58
Qiagen launches AdnaTest liquid biopsy kits for prostate, lung cancer, 05/18:58
SeraCare NGS QC software integrated into Philips' genomics platform, 05/18:58
FDA clears T2Bacteria panel for detecting sepsis-causing pathogens, 06/18:82
Veracyte provides early access to genomic classifier for IPF diagnosis, 06/18:82
Abbott introduces Afinion 2 analyzer for diabetes care?, 06/18:82
Qiagen announces partnership, exhibits new NGS panels, 06/18:82
Myriad to acquire Counsyl, 06/18:81
High-sensitivity troponin I assay available in the U.S., 07/18:102
FDA clears Afinion HbA_{1c} Dx for diagnosing diabetes, 07/18:102
Roche, Foundation Medicine reach merger agreement, 07/18:102

Abbott introduces Alinity, 07/18:102
FDA clears Lumipulse G Brahma PCT assay, 07/18:101
Study: blood tests effective in screening for sleep apnea, 07/18:101
Research point to NHS savings with greater use of in vitro diagnostics,
07/18:101
Cobas HPV test approved for first-line screening using SurePath
preservative fluid, 08/18:58
Beckman, Arkay announce iQ Workcell launch, 08/18:58
FDA grants breakthrough device designation for Elecsys CSF assays,
08/18:58
Ipilimumab approved for MSI-H or dMMR metastatic colorectal cancer,
08/18:58
Final positive LCD issued for use of ConfirmMDx for Prostate Cancer,
08/18:57
Sysmex partners with Advanced Instruments, 8/18:57
FDA clears Simplexa HSV 1 & 2 Direct for extended swab sample claims,
8/18:57
Qiagen's CareHPV wins WHO prequalification, 08/18:57
Broad-based molecular testing for NSCLC, 09/18:86
AMP report: DNA variants in chronic myeloid neoplasms, 09/18:85
Cervical cancer screening guidelines recommend HPV testing alone,
09/18:85
Sysmex opens new Center for Learning, 09/18:85
DCISionRT study finds prognostic, predictive power, 09/18:85
Agena, PerkinElmer to collaborate, 09/18:85
Therascreen EGFR RGQ PCR kit approved as companion diagnostic for
Vizimpro, 10/18:94
Roche announces liquid biopsy ctDNA test, 10/18:94
Philips introduces computational pathology software for tumor
detection, 10/18:94
FDA clearance, CLIA waiver for POC Sofia 2 Lyme FIA, 10/18:94
Natera signs agreement with Bristol-Myers Squibb, 10/18:94
Draft LCD for Veracyte's Envisia Genomic Classifier, 10/18:94
Quest acquires PhenoPath, 11/18:94
Abbott introduces next generation of influenza, strep A assays, 11/18:94
NeoGenomics to acquire Genoptix, 11/18:94

FDA Oks emicizumab-kxwh for hemophilia A with or without FVIII inhibitors, 11/18:94
Leica launches integrated specimen containment and transport system, 11/18:94
Illumina launches TSO 500, 11/18:94
New panels, expanded QCI solutions from Qiagen, 11/18:94
NGS Avenio Tumor Tissue Analysis Kits from Roche, 11/18:93
600 LabCorp at Walgreens patient service centers, 11/18:93
Pathologists and population health – first steps, 12/18:58
Roche launches first IVD pan-TRK IHC, 12/18:57
FDA clears DiaSorin Molecular GBS Direct assay, 12/18:57
Breakthrough device designation for Enhanced Liver Fibrosis Test, 12/18:57
NeuMoDx Molecular launches 288 and 96 Molecular Systems, 12/18:57
Expanded use approved for Vitros HIV Combo Test, 12/18:57

Q&A

With the Stago STA Compact Max and Stago STA R Max with cap piercing, is validation between modes necessary? (Donaldson), 01/18:52
Is PHI (phosphohexose isomerase), also known as GPI (glucose phosphate isomerase), mainly responsible for metastasis and circulating tumor cells? (Leal), 01/18:53
Can you offer practical, how-to guidance on developing an effective QC strategy for HIV viral load testing? (Anderson), 02/18:64
Tumor stage for a tumor in the mediastinal fat around the bronchi that had to invade the viscera pleura to invade the peribronchial adipose tissue (Butnor, Beasley), 03/18:56
Performance of an RPR as a screen for clinically significant antiphospholipid or anticardiolipin antibodies during pregnancy (Rhoads), 03/18:56
Should a semen specimen accepted outside the collection window, according to the SOP, have been rejected and re-collected? (McGee), 04/18:62
What is the PD-L1 immunohistochemistry combined positive score and how does it compare with the tumor proportion score? (Shia), 04/18:62

When moving machines to a new building, do you need to perform a full revalidation of all our antibodies? (Jensen), 05/18:50

What is the value of *CYP2D6* in opioid prescribing? (McMillin), 05/18:50

What is the role of total testosterone and free testosterone in gauging the effectiveness of androgen deprivation therapy? (Molinaro, Eckfeldt), 06/18:72

When validating the NMR panel in our THC, do we use the CAP guidelines for antibody validation for a nonpredictive marker or a predictive marker? (Kandalajt), 06/18:74

Is CD30 currently being used as a predictive marker for therapy? (O'Malley), 07/18:92

Is full test validation required when molecular instruments are relocated within the lab due to construction? (Wielgos), 7/18:92

What is the best way to report fecal fat testing? (Zimmerman), 08/18:52

Who developed the formula for the corrected white blood cell count for nucleated red blood cells, and how was the formula established? (Mahe), 08/18:52

Is there expert advice or standard practice for the release of preliminary critical values (on inpatients to the LIS) pending subsequent technologist or technician verification and documentation? (Perrotta, Lehman), 09/18:74

Can you recommend an alternative to fresh bone marrow specimens for validating the preservation of tissue morphology and antigenicity after decalcification? (Toxell, Salama, Dewar), 09/18:78

How can one wisely apply GATA3 immunohistochemistry as a useful tumor marker in diagnostic surgical pathology? (Chen, Liu, Lin), 10/18:84

Is anticoagulant adjustment in citrate tubes necessary when a patient's hematocrit is less than 20 percent? (Chen), 11/18:86

What is the substitute test for HbA_{1c} for a patient with homozygous variant hemoglobin? Is a fructosamine and/or glycated albumin test appropriate? (Sacks), 11/18:86

Can you explain further the revised CAP checklist requirement COM.40850 "LDT and Class I ASR Reporting," which says to describe the method and performance characteristics in test reports unless the

information is available to the clinician in an equivalent format? (West), 12/18:48

Can we see reactive lymphocytes in the pediatric population (under age two), and can we report them? (Mahe), 12/18:48

Quality assurance/quality control/quality improvement

Imaging mass spec scores its own quality standards, 10/18:14

Reference lab testing services/send-out testing

Puzzling out the positive shift in the final 14-day rule, 03/18:01

Robots

Look, wait, buy: labs share instrument plans, 07/18:01

Safety

Some safety issues more gray than black and white, 01/18:58

New requirements for use and storage of liquid nitrogen, dry ice, 10/18:01

Screening tests (See also Diagnostic assays/markers/tests/test kits)

Forward march on commercial NAAT for *M. genitalium*, 09/18:01

How best to test compliance and manage opioid crisis, 09/18:14

Next step? The switch from stool culture to PCR, 09/18:52

Thyroid during pregnancy: how it changes, how to test, 10/18:01

Sepsis

Microbiology's shifting role in war on sepsis, 08/18:01

Sexually-transmitted diseases/infections

Forward march on commercial NAAT for *M. genitalium*, 09/18:01

Shorts on Standards

Establishing cutoffs, reference ranges for biofluid biomarkers in Alzheimer's disease: Reference materials and reference measurement procedures, 10/18:74

Test interference

Biotin interference: answering questions, reducing the risk, 11/18:01

Test ordering

Smart test ordering—new program provides the tools, 02/18:05

Thyroid disease/testing

Thyroid during pregnancy: how it changes, how to test, 10/18:01

Toxicology testing/consults

Drug overdose deaths and toxicology tests: Let's talk, 12/18:10

Tuberculosis

TB testing: new approaches to old scourge, 04/18:01

Tumor mutational burden

Time now for tumor mutational burden?, 11/18:01

Urinalysis/urinary tract infections/urinary cytology

All eyes on standardized, scalable, integrated solutions, 12/18:34

Warfarin

Genotype-guided dosing of warfarin: GIFT wrap-up, 01/18:01

Whole slide imaging

Program zeroes in on histology, digital scan connection, 12/19:05

Workload limits

For adequacy assessments, it's time, not slides, 8/18:18
