

## AdvantEdge acquires PMI

**April 5, 2018**—[AdvantEdge Healthcare Solutions](#), a medical billing company, has acquired Professional Management Inc., a Baltimore-based medical billing company that provides billing services to pathology, radiology, and emergency medicine physician groups. With the acquisition, AdvantEdge, headquartered in Warren, NJ, will expand its presence and strengthen its footprint in the Mid-Atlantic region.

“As health care becomes a more challenging environment for specialty physicians with compliance regulations, performance-based reimbursement models, and increasing market competition, they are looking for companies that can provide a full range of revenue cycle management and analytical solutions for their practices,” David Langsam, president and CEO of AdvantEdge, said in a statement. “PMI’s footprint and long-standing reputation as an exceptional billing service for hospital-based specialties makes this combination a great fit for AdvantEdge.”
