

Affymetrix, Luminex distribution agreement, 11/15

Affymetrix and Luminex announced a distribution agreement under which eBioscience, a business unit of Affymetrix, will sell Luminex's Magpix, Luminex 200, and Flexmap 3D multiplexed assay platforms in specified countries in the Americas, Asia, and Europe. Affymetrix will sell the Luminex instruments together with ProcartaPlex multiplexed immunoassays and QuantiGene Plex multiplexed quantitative gene expression assays, offering solutions to customers working in the fields of drug discovery and development, immuno-oncology, and translational research.

The distribution agreement covers the U.S., Canada, Mexico, Brazil, and China as well as the Netherlands, Germany, France, U.K., Switzerland, Austria, Belgium, Ireland, Luxembourg, and Poland.
