

## Artus *C. difficile* kit, 4/14

April 2014—IMDx's artus *C. difficile* QS-RGQ kit received CE marking for use with QIAAsymphony SP/AS and Rotor-Gene Q instruments. Concurrently, in December 2013, a Premarket Notification 510(k) for the test was submitted to the FDA for review.

This is the first of a series of assays designed, developed, and manufactured by IMDx for Qiagen under a multiyear development and license agreement.
