

Bcl-6 rabbit monoclonal antibody for IVD use, 12/13

[printfriendly]

December 2013—Bio SB, a molecular pathology company based in Santa Barbara, Calif., announced the launch of its Bcl-6 rabbit monoclonal antibody for in vitro diagnostic use. Bcl-6 is a transcriptional regulator gene that codes for a 706-amino-acid nuclear zinc finger protein.

Bio SB's portfolio of rabbit monoclonal antibodies includes more than 130 IVD antibodies for use in immunohistochemical applications.
