

Bio-Rad launches InteliQ Diabetes Control

May 21, 2021—[Bio-Rad Laboratories](#) launched its InteliQ Diabetes Control, the 10th product offered in the InteliQ format.

The InteliQ Diabetes Control is designed to empower labs to automate their QC workflow with load-and-go efficiency. It includes three distinct levels that may address HbA1c precision monitoring needs of a range of test methods. The control is compatible with major instrument platforms including Siemens Atellica, Abbott Alinity, Roche Cobas, and other systems.
