

Cancer Biomarkers Conference IV

The Cancer Biomarkers Conference series provides real-world practical updates for general community pathologists, molecular pathologists, oncologists, and related specialties and professions. The conference features lectures and panel discussions on specific biomarker testing in solid and hematologic malignancies for tyrosine kinase inhibitors and immune therapies, liquid biopsy, next-generation sequencing, preanalytic management, billing, regulations, and malpractice for everyday practice and includes the needs and expectations of the oncologist.

[Cancer Biomarkers Conference IV](#) will take place Oct. 4-6 at the Marriott Saddle Brook in Saddle Brook, NJ. The program is directed by Philip T. Cagle, MD, University of Mississippi Medical Center, and sponsored by the University of Mississippi School of Medicine, Department of Pathology; Princeton Medical Center; and the University of Mississippi Medical Center, Division of Continuing Health Professional Education.

The University of Mississippi School of Medicine designates this live activity for a maximum of 12 AMA PRA Category 1 Credits. The University of Mississippi Medical Center Division of Continuing Health Professional Education will award a maximum of 12 credit hours.

Information about registration, the conference agenda, and more is available [here](#).
