

## CAP, others offer input about pricing for molecular tests

A coalition representing more than 120,000 medical and laboratory professionals and institutions that perform the vast majority of clinical molecular pathology testing in the United States released a joint statement about new Medicare prices for those tests.

The groups include the CAP, American Association for Clinical Chemistry, American Clinical Laboratory Association, American College of Medical Genetics and Genomics, American Society for Clinical Pathology, American Society for Histocompatibility and Immunogenetics, Association for Molecular Pathology, California Clinical Laboratory Association, and Society for Inherited Metabolic Disorders.
