

Compact Max celebration, 9/14

At the AACC Show 2014

September 2014—Diagnostica Stago celebrated the success of its newest instrument line with the competitive conversion placement of its 100th Compact Max in six months. The Compact Max, an intelligent, user-friendly platform for coagulation testing, is the first of the Max line of instruments that will be rolling out to laboratories worldwide over the next couple of years.
