

Corning, BioCision form global distribution agreement, 12/15

Corning Inc. and BioCision LLC announced an agreement in which Corning will become, on Jan. 1, 2016, the global distributor of popular BioCision products, including the innovative CoolCell cell cryopreservation systems, CoolBox ice-free sample preparation systems, CoolRack, CoolSink, and ThermalTray thermo-conductive sample tube and plate modules, TruCool ice pans and buckets, and CryoCeps cryogenic vial grippers.

The agreement will expand the reach and availability of these products by using Corning's global sales team and worldwide distribution network.
