

## D-Dimer test kit, 10/16

**October 2016**—LGC Maine Standards announced its Validate D-Dimer calibration verification/linearity test kit has received 510(k) clearance for use on Instrumentation Laboratory's ACL Top hemostasis test systems. The kit evaluates D-dimer in a human-plasma base matrix, is prepared using the CLSI recommended "equal delta" method for linearity testing, and is liquid, ready to use.
