

D-dimer test kit approved for Stago analyzer, 3/17

March 2017—LGC Maine Standards' Validate D-Dimer calibration verification/linearity test kit received FDA 510(k) clearance for use on Stago STA-R Evolution analyzers. The kit evaluates D-dimer in a human plasma base, is prepared using the CLSI recommended "equal delta" method for linearity testing, and is liquid, ready-to-use.
