

[DiaSorin VZV swab test gets CE mark](#)

written by CAP TODAY
December 18, 2019

December 2019—DiaSorin Molecular received the CE mark for its Simplexa VZV Swab Direct assay. The molecular diagnostic test enables the direct detection of varicella-zoster virus DNA from cutaneous and mucocutaneous swab specimens. The assay is used with the Liaison MDX instrument and complements the company's Simplexa HSV 1 & 2 Direct kit. DiaSorin has submitted the Simplexa VZV Swab assay to the FDA for 510(k) clearance.
