

Electronic data management system, 2/15

February 2014—Title21 Health Solutions released its Cellular Therapy Solution, which enables cellular therapy environments, transplant centers, and cord blood banks to achieve traceability, enhance quality controls, and streamline the life cycle of therapeutic products in an easy-to-use platform. The platform automates quality management, laboratory information management, and inventory management with integration to Center for International Blood and Marrow Transplant Research/National Marrow Donor Program, ISBT 128 labeling, laboratory instruments, and HL7 integration with other clinical information systems.
