

## FDA-cleared POC tests for BUN, TC02, 4/18

**April 2018**—Siemens Healthineers received FDA 510(k) clearance for its blood urea nitrogen and total carbon dioxide point-of-care tests to aid in the diagnosis of renal diseases and metabolic imbalances.

The tests will be available on Siemens' handheld Epoc Blood Analysis System. The Epoc system delivers a full menu of results, including pH, partial pressure of oxygen, partial pressure of carbon dioxide, sodium, potassium, ionized calcium, hematocrit, glucose, lactate, creatinine, chloride, and soon BUN and TC02, in less than a minute. Results are easily integrated into any laboratory information system.
