

First Atellica Solution with Aptio installed in U.S.

July 2018—Siemens Healthineers completed the first U.S. installation of its Atellica Solution immunoassay and clinical chemistry analyzers connected to Aptio Automation at Access Medical Laboratories in Jupiter, Fla. The Atellica Solution integrates immunoassay and clinical chemistry analyzers that can be combined into more than 300 customizable configurations. Aptio Automation is a track-based automation solution.
