

Free online genomics conference

Aug. 6, 2014—A two-day online conference Aug. 20-21 will cover a wide range of topic in genetics and genomics, such as RNAi, next-generation sequencing, genotyping, and molecular diagnostics.

The meeting—sponsored by Thermo Fisher Scientific, Beckman Coulter, Roche, and other firms—will feature interactive, live streaming video sessions and a virtual exhibit floor. Faculty includes experts from MD Anderson Cancer Center, Dartmouth, and Stanford. Free CME, CE, and CEU credits are available. [Register](#).
