**September 2017**—MedTest’s Pointe Scientific product brand has developed a full line of chemistry reagents that are manufactured and packaged in barcoded reagent containers for use on the BioLis 24i chemistry analyzer, also known as the CLC480 or MGC 240 chemistry analyzer. The menu consists of 31 general chemistry assays, including specialty tests such as direct hemoglobin A1c, Auto HDL and Auto LDL cholesterol, microalbumin, and microprotein.
