

## H&E stain kit

December 2018—Sakura Finetek USA launched the Tissue-Tek Prisma H&E Stain Kit #1, specifically designed for the Tissue-Tek Prisma line of stainers. The kit was created to stain up to 2,500 slides or to last for two weeks and consists of six 750-mL bottles (one bottle each of hematoxylin and eosin, two bottles each of differentiator and bluing reagent).

The kit and its components are barcoded to enable scanning of their lot numbers and expiration dates for documentation; up to 1,000 barcodes can be saved on the Prisma Plus stainer.
