

IL workshops hit hot topics at AACC

July 10, 2014—[Instrumentation Laboratory](#) is presenting two, hour-long educational sessions at the [AACC's Annual Meeting and Clinical Lab Expo](#). The first will feature Ted E. Warkentin, MD, and Pau Bruguera, PhD, on clinical and laboratory aspects of heparin-induced thrombocytopenia diagnostics ([register](#)).

In the other workshop, Sharon Ehrmeyer, PhD, MT(ASCP), will talk about how to develop and implement individualized quality-control plans in POC testing ([register](#)).
