

## MediPath selects NovoPath as its AP LIS

**Nov. 8, 2018**—[NovoPath](#) announced that its anatomic pathology software platform has been selected by MediPath as its laboratory information system.

“During the thorough selection process, MediPath had an opportunity to survey the capabilities of several vendors,” Sandra Aponte, MD, medical director and lead pathologist for MediPath, said in a statement. “NovoPath’s solution best aligned with MediPath’s needs and offered the most robust and flexible capabilities at a competitive price. We felt it was the best choice to help position us to meet today’s challenges and to support our future growth plans.”

MediPath Pathology Lab is a TopLine MD affiliated center.
