

Meridian launches TruBlock Ready

April 19, 2018—[Meridian Life Science](#) launched TruBlock Ready, a broad-acting HAMA blocker that is ready to use within a single dilution step. TruBlock Ready employs an active blocking technology that results in higher blocking efficiency than conventional blockers and provides broad coverage against human anti-mouse antibody, rheumatoid factor, and heterophilic antibodies. The blocking effectiveness has been proven in ELISA and lateral flow assay formats.
