

Momentum Consulting offers plan for lab optimization

June 2023—Momentum Consulting has kicked off its laboratory optimization program for CLIA labs that are emerging from the COVID pandemic with broad or specific needs. The plan covers maximizing existing resources in a laboratory for output in areas such as specimen processing, workflow, new test menus, quality management, billing and collection, sales revenue, and more. Momentum has a team of subject matter experts in these fields to help laboratories improve their productivity.
