

Early online articles offer genomics, HPV testing updates

Dec. 12, 2014—The *Archives of Pathology & Laboratory Medicine* has published three important articles as [early online releases](#). An editorial ([abstract](#) | [PDF](#)) asks, “How Will the \$1,000 Dollar Genome Meet Reality (and Centers for Medicare & Medicaid Services)?”

Meanwhile, a survey ([abstract](#) | [PDF](#)) of nearly 1,000-plus laboratories provides an update on use of high-risk HPV testing. Finally, the CAP’s Personalized Health Care Committee has published the 2014 Cancer Genomics Resource List ([abstract](#) | [PDF](#)).
