

Nova Biomedical awarded group purchasing agreement

March 2019—Nova Biomedical has been awarded a multiyear group purchasing agreement for critical care blood gas analyzers from Premier. The agreement allows Premier members to take advantage of special, prenegotiated pricing and terms for Nova's Stat Profile Prime Plus critical care blood gas analyzers and consumables in addition to Nova's 10-test Prime.

Prime Plus features maintenance-free sensor technology to provide 20 critical care tests including BUN, creatinine, ionized magnesium, blood gases, electrolytes, metabolites, hematology, and co-oximetry.
