# [Qiagen, Sophia partner to offer NGS solutions](#)

written by CAP TODAY  
April 13, 2023

March 2023—Qiagen has launched its QIAseq Platform Partnership program and a partnership with Sophia Genetics that will bring together QIAseq reagent technology for next-generation sequencing with the Sophia DDM digital analytics platform. The Platform Partnership program aims to enhance the use and compatibility of QIAseq NGS kits to support secondary analysis and tertiary interpretation workflows offered by other digital data-sharing and analytics companies. The kits are designed for use with any sequencer.

## [Verichem Enzyme ER Calibration Verifier kit](#)

written by CAP TODAY  
April 13, 2023

March 2023—Verichem Laboratories' ready-to-use Enzyme ER Calibration Verifier kit is now available. The materials are designed for the calibration verification of enzyme assays on wet chemistry testing systems and contain nine clinical enzyme components covering 54 individual activity levels. The enzyme components within the materials include amylase, alanine aminotransferase, alkaline phosphatase, aspartate aminotransferase, cholinesterase, creatine phosphokinase, gamma glutamyltransferase, lactate dehydrogenase, and lipase. The materials are intended to be treated as patient specimens and have a shelf life of 18 months.

## [AscencioDx COVID-19 test, molecular detector get EUA](#)

written by CAP TODAY  
April 13, 2023

March 2023—Anavasi Diagnostics announced FDA emergency use authorization for its AscencioDx COVID-19 test and AscencioDx molecular detector for use in POC settings operating under a CLIA certificate of waiver, certificate of compliance, or certificate of accreditation. The system uses reverse transcription loop-mediated isothermal amplification for the qualitative detection of RNA from the COVID-19 virus in samples that are heated and illuminated via fluorescence signals in a reaction tube placed within the detector. Results are available in as few as 20 minutes. The detector is reusable for at least 3,000 test cycles, the company says, and is powered by a 12-volt adapter.

## **Globe Scientific introduces Globe/Euromex microscopes**

written by CAP TODAY  
April 13, 2023

March 2023—Globe Scientific has introduced a line of Globe/Euromex microscopes and microscope accessories. The line is composed of 24 CE-certified stereoscopic, compound, and inverted binocular and trinocular microscopes and 12 microscope accessories. Customers can access several support tools, including a microscope selection guide and Euromex Academy, which includes online video tutorials, user manuals, educational blogs, and more.

## **LGC launches BRCA1/2 reference materials**

written by CAP TODAY  
April 13, 2023

March 2023—LGC Clinical Diagnostics has launched the Seraseq gDNA BRCA1/2 LGR Somatic Mutation Mix and Seraseq gDNA BRCA1/2 LGR Inherited Mutation Mix. The products are intended for use as quality reference materials in developing, validating, and evaluating the routine performance of laboratory tests and are for research use only.
