# Magnolia launches Mission to Zero

written by CAP TODAY  
December 11, 2020

November 2020—Magnolia Medical Technologies launched Mission to Zero to bring greater awareness to patient safety and antibiotic-associated risks caused by false-positive diagnostic test results for sepsis. Magnolia is launching the initiative by partnering with emergency departments, critical care units, clinical laboratories, and infection prevention teams within acute care hospitals. Each team member makes an individual pledge to participate, the company says, which allows all departments to work in tandem to ensure the best possible patient outcomes and experience are achieved.
