

Partners: UCSF, Quest, 4/14

April 2014—UC San Francisco and Quest Diagnostics formed a collaboration to accelerate the translation of biomedical research into advanced diagnostics in the field of precision medicine for improved patient care, treatment, and outcomes.

The collaboration has an overarching aim of enabling holistic and integrated diagnostic solutions that close gaps in care or enable new clinical value. Initial clinical areas of focus include autism, oncology, neurology, and women's health.
