

Portable printer, 2/16

Primera Trio from Primera Technology is a small, lightweight, portable all-in-one printer. Designed for nurses and doctors to print on demand at hospitals and home care facilities, Primera Trio prints, copies, and scans in full color or black monochrome from a unit that weighs 2.6 pounds and is about the size of a hardcover book.

Primera Trio uses standard A/A4-size paper and can print text, graphics, and photo-quality images on plain paper with up to 4,800 dpi print resolution. It connects to a computer, laptop, or tablet using a USB port and supports Windows Vista, 7, and 8X or Mac OSx 10.7+. Scans can be saved as PDF files, JPEG images, or other common file formats.
