

Post-transplant viral load monitoring: the importance of standardization and commutability of diagnostic methods

Dr. Yao

Dr. Miller

Webinar presenters **Steve Miller, MD, PhD**, University of California San Francisco, and **Joseph Yao, MD**, Mayo Clinic, Rochester, Minnesota, discuss the need for standardization in post-transplant diagnostics with emphasis on Epstein-Barr virus (EBV) and BK virus (BKV), how this can be achieved and how improvements in laboratory testing can potentially translate into better patient care, and the impact of COVID-19 on transplant diagnostics and laboratory testing and what this means for patients and for the laboratory.

Moderated by: Bob McGonnagle, Publisher, CAP TODAY.
