Reduced TAT for Vivalytic SARS-CoV-2 positive samples

February 2021—Randox announced that its improved software for the Vivalytic analysis device enables its CE-marked Vivalytic SARS-CoV-2 rapid coronavirus test to deliver results for positive samples in less than 30 minutes.

The update is available for the SARS-CoV-2 singleplex test and the SARS-CoV-2 pooled test and is accessed via the Bosch cloud platform Vivasuite. Turnaround time for samples negative for SARS-CoV-2 is 39 minutes.
