

Roundtable discussions 2013: The future of the lab in health care

Video Series

In a collaborative effort to discuss the future of the laboratory in health care, CAP TODAY publisher Bob McGonnagle met with Orchard Software chief operating officer Curt Johnson and Orchard medical director Mick Glant, MD. This series of “roundtable discussions” was recorded and edited into a series of short videos on various topics surrounding the laboratory and informatics.

We’ve published a total of eight videos, which you can watch [here](#).
