

Sekisui Diagnostics, Qualigen partnership, 10/16

October 2016—Sekisui Diagnostics and Qualigen announced a strategic partnership encompassing current business and future collaboration opportunities. Sekisui Diagnostics has assumed commercial activities and distribution management for the FastPack IP System and associated products in U.S. and international markets. The FastPack IP System is a point-of-care immunoassay system designed to enable physician office laboratories to offer key quantitative test results where there is immediate clinical value. The test menu includes vitamin D, testosterone, TSH, free T4, PSA, and hCG.
