

## Siemens rolls out Atellica in Australia

December 2018—Australian health care company Primary Health Care has joined forces with Siemens Healthineers to deploy more than 70 Atellica Solution immunoassay and clinical chemistry analyzers. The analyzers are integrated with Atellica Diagnostics IT solutions and will connect to Inpeco's FlexLab track for total lab automation. This marks Siemens' largest contract for in vitro diagnostics testing in Australia. The Siemens technology will be rolled out in New South Wales, Queensland, Victoria, and Western Australia.
