

Streck, Orgentec distribution agreement, 12/17

December 2017—Streck and Orgentec Sasu, a distributor in France that specializes in the in vitro diagnosis of autoimmunity, infectious diseases, molecular biology, internal/external quality control, biochemistry, and sedimentation rate, have signed an exclusive distribution agreement for Streck's cell stabilization and molecular products.

Cell stabilization products include Cell-Free DNA BCT, Cell-Free RNA BCT, and Cell-Free DNA Urine Preserve; molecular products include ARM-D kits and the Zulu RT PCR instrument.
