

Technopath, Beckman Coulter partner, 5/18

May 2018—Technopath Clinical Diagnostics, an Ireland-based developer and manufacturer of total quality control solutions for clinical laboratories, and Beckman Coulter Diagnostics signed a long-term supply and distribution agreement. Under the agreement, Technopath will supply and enable Beckman Coulter to distribute Technopath Multichem QC products, including QC materials and its IAMQC data management solutions, in more than 100 countries.

Beckman Coulter anticipates immediate distribution of an initial set of Technopath QC products for chemistry and immunoassay in Europe, with other regions to follow as registrations are completed.
