

Test for the detection of norovirus GI, GII, 12/17

December 2017—Abacus Diagnostica received the CE mark for the GenomEra Norovirus, a molecular in vitro diagnostic test for the detection and differentiation of norovirus genogroups I and II. The test runs on the GenomEra CDX platform.

The company has signed a distribution agreement with U.K.-based Launch Diagnostics to supply the GenomEra CDX instrument and norovirus kits in the U.K., Ireland, France, Belgium, the Netherlands, and Luxembourg.
