

## CAP TODAY webinar on influenza testing

**Feb. 22, 2018**—CAP TODAY is hosting a webinar titled “Diagnostic Accuracy of Novel and Traditional Rapid Tests for Influenza Compared with Reverse Transcriptase PCR” on Tuesday, Feb. 27, 1 PM ET.

Presented by Jesse Papenburg, MD, MSc, FRCPC, and moderated by CAP TODAY publisher Bob McGonnagle, this hourlong webinar will empower you to understand new approaches to influenza testing and technologies, discover the key points of evaluation, and gain insight into the current field.

Dr. Papenburg, FRQS clinical research scholar and assistant professor of pediatrics, McGill University Division of Pediatric Infectious Diseases, Department of Microbiology, Montreal Children’s Hospital, will answer questions from webinar attendees.

Registration is free of charge at [www.captodayonline.com/022718webinar](http://www.captodayonline.com/022718webinar).

CAP TODAY does not endorse any of the products or services named within. This webinar is made possible by a special educational grant from BD.
