

Tosoh G8 now connects to Sysmex XN-9000, XN-9100 systems

Dec. 27, 2023—[Tosoh Bioscience](#) has entered into an agreement with Sysmex America in which its HLC-723G8 automated glycohemoglobin analyzers can now be connected to Sysmex XN-9000 and XN-9100 automated hematology systems in the United States, Latin America, and Canada. With this agreement, Tosoh says it aims to expand its HbA1c offering to the high-volume testing market and further automate hemoglobin A1c testing.
