

Under counter refrigerators and freezers, 9/13

Helmer Scientific's i.Series and Horizon Series under counter refrigerators and freezers are available in ADA-compatible models. These models are designed to fit under 34-inch ADA-compliant counters and offer chamber temperature uniformity with quick recovery, bacteria-resistant powder coating, and a self-closing door with magnetic latch.

The refrigerators and freezers can be placed under the counter, used free-standing, and stacked. I.Series models include a door-mounted i.C3 user interface with full-color touchscreen. Horizon Series models include a door-mounted alarm/monitoring system.

Custom storage options are available and include shelves, roll-out baskets, and drawers. LED lighting, swivel casters, and glass doors are also available.
