

# [Urine drug tests for forensic use, 2/18](#)

written by CAP TODAY

February 13, 2018

**February 2018**—MedTest announced the commercial availability of four forensic use only urine drug tests for use on its BS-200, BS-480, and BA-800M chemistry analyzers. The four new assays are DRI Fentanyl, Cedia AB-PINACA (spice K2), Cedia UR-144/XLR-11 (spice K2), and DRI Ethyl Glucuronide.

To ensure compliance with the FDA regulations for forensic use only products, MedTest will require customers to sign an acknowledgment letter that will be kept on file before these products will be shipped.
