

Vidas *C. difficile* GDH, 5/14

May 2014—BioMérieux launched its Vidas *C. difficile* GDH for automated detection of GDH, a specific enzyme produced by *C. difficile*. Vidas *C. difficile* GDH is the first automated immunoassay cleared by the Food and Drug Administration. It's used on the Vidas, mini Vidas, and Vidas 3 automated immunoassay platforms.
