

Visiun awarded sole-source agreement, 3/15

March 2015—The Compass Group has awarded Visiun a sole-source agreement for business intelligence software for Compass Group's 26 nonprofit health systems. Visiun's Performance Insight provides laboratory directors and managers with business intelligence and analytics to help their management team monitor key performance indicators. Graphical reporting provides immediate insight into key aspects of laboratory performance including turnaround times, productivity, quality, utilization, and financial management.
