

Vistapath introduces Sentinel platform

February 2023—Vistapath has introduced its flagship product, the Sentinel pathology processing platform. The platform uses machine vision combined with artificial intelligence to assess specimens and create a gross report in a few seconds. It consists of the Sentinel module, which measures 17 in. W x 12 in. D x 15 in. H, and the touchscreen, which measures 15 in. W x 8 in. D x 11 in. H.
