

Webinar: Nonconforming event reporting

Aug. 8, 2014—Randy German, MT(ASCP), blood bank and laboratory quality manager at Hoag Memorial Hospital, will share best practices for nonconforming event and blood product deviation reporting and investigation in a 50-minute webinar hosted by Nouvation, maker of occurrence-tracking software.

German will review regulatory requirements, discuss what should be reported, and explain effective root-cause analysis in a blame-free culture. To register, fill out this [contact form](#) and note your interest in the Sept. 24, 2014, webinar in the question field to get more details when available.
