

## Xifin forms medical advisory board, 8/14

July 2014—Xifin, the financial cloud computing company for diagnostic service providers, formed a medical advisory board that will share its extensive expertise in pathology operations and workflow, lab automation, regulatory requirements, clinician needs, and pathology informatics important to the company's product development and strategic initiatives.

The eight-member board, chaired by Dr. David Frishberg, vice chair of anatomic pathology at Cedars-Sinai Medical Center, includes: Dr. Thomas Bauer, medical director of ePathology, Department of Pathology, Cleveland Clinic; Dr. Michael Feldman, associate professor of pathology and laboratory medicine, assistant dean for information technology, medical director of pathology informatics, and director of the tumor tissue bank at University Pennsylvania Health Center; Dr. Keith J. Kaplan, pathologist; Dr. David McClintock, medical director of pathology informatics at University of Chicago Medicine; Dr. Anil Parwani, professor of pathology and biomedical informatics, director, Division of Pathology Informatics, Department of Pathology, University of Pittsburgh Medical Center; Dr. B. Alan Rampy, assistant professor of pathology education at University of Texas Medical Branch; and Dr. Julie Wu, pathologist.
